OFFICE OF PETITIONS

Applicant: Henot et al.
Appl. No.: 10/561,175
International Filing Date: June 22, 2004
Title: EPITOPE COMPOSITION FOR SUBLINGUAL, BUCCAL OR ENTERIC
ADMINISTRATION PREPARED BY HYDROLYSIS OF ANTIGENIC STRUCTURES WITH
CHYMOTRYPSIN
Attorney Docket No.: 2447.0030000/ELE/LMB
Pub. No.: 2006/0147459 A1
Pub. Date: July 6, 2006

This is a decision on the request for corrected of patent application publication under
37 CFR 1.221(b), received on September 6, 2006, for the above-identified application.

The request is granted.

The corrected patent application publication will be published in due course, unless the patent
issues before the application is republished.

It would greatly benefit the Office if **applicant did not provide copies of papers**, which were
previously submitted or **complete copies of the publication**, as it unnecessarily increases the
cost to the Office. See 37 CFR 1.4(b). A request for corrected publication need only point out
what was printed incorrectly in the application, where the error occurs in the publication and
where the correct text or drawing is found in the application papers. Marked up relevant copies
of the applications papers and the pre-grant publication may facilitate processing of the request,
where it is not readily apparent where the error occurs. If it is not clear why the error is a
material error, further explanation may be warranted.

Inquiries relating to this matter may be directed to Mark O. Polutta at (703) 272-7709.
